Children are country's future and an empowered generation will be an asset for country and humanity at large. Our vision is to meet this challenge and contribute in whatever little way we can and make a few children if not all as contributors who are equipped to meet the future world challenges and hence our heart is on children's overall growth.

With this view in mind M.P.S. was established in 2009. Now it is focusing towards improving their physical, mental moral and academic and social development so as to mould their all round personality based on integrity character and benevolence and make them capable of meeting the challenges of new era.

SCHOOL MOTTO: (EVER ONWARD)

“Good Education is the foundation of good career”

The aim of education should be to teach how to think, rather than what to think - to improve a child's mind, so as to enable him to think for himself, rather than to load the memory with thoughts of other men.

For this our school provides a modernized quality education in an airy atmosphere. We aim to provide stimulating educational experience within the formal CBSE curriculum while believing that school life should be valued for itself and also as preparation for adulthood. The heart of school's aim is at the intellectual, cultural and social development of all pupils. We work to help the child to mould his hidden qualities to become a confident independent and complete human being.

A good teacher is like a candle - it consumes itself to light the way for others.

Computer Lab

Computer Lab

Equipped with the latest Pentium systems, the computer lab is very much in tune with the times. Apart from effectively aiding in teaching the prescribed syllabus, it endeavors to expose the latest technologies and skills to the students.

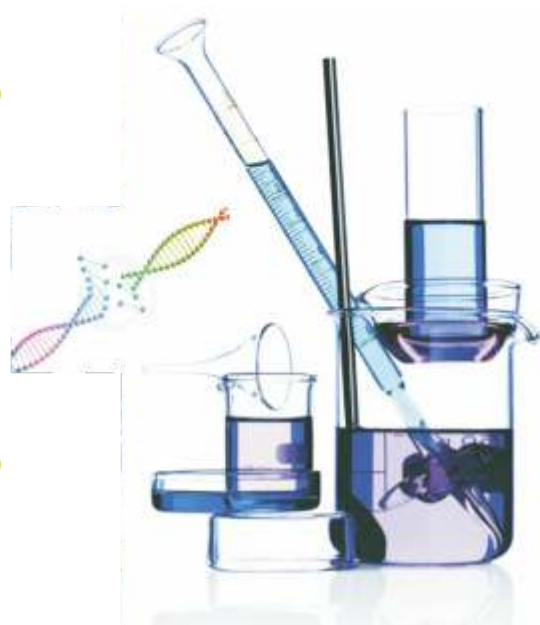

Science Laboratories

Science Laboratories

The school has spacious and well-ventilated laboratories for the departments of chemistry, physics and bio-sciences. Furnished with all the necessary instruments and accessories, the labs ensure that the practical understanding of the subject is comprehensive and complete

Students have access to Basket Ball ground
where they can play Basket Ball, Skating & Other Activities

Judo Karate

Judo, literally the "way of softness," developed from an earlier form of unarmed martial art called jujutsu (literally the "technique of softness"), learned from the Asian continent. Judoists practise such techniques as throwing, grappling, and attacking vital points for self-defense and for competition, but the practice of judo is also meant to develop sharp mental powers and to build a correct moral attitude.

Digital Room

Keeping pace with students who are becoming more tech-savvy, schools in India are taking to the concept of digital classrooms — a new education technology that assists teachers with course-ware and maintenance support in digital format.

“We feel honoured to work with such a good team—children and adults. We are so proud to say we work at MAHARISHI PUBLIC SCHOOL

OUR MISSION

To lay the foundation of a noble character of moral integrity, brotherhood, patriotism and sacrifice in the young minds so that they grow straight and strong as ideal leaders who can shape the destiny of the nation.

Objectives

True education should produce balanced personality in whom intellectual, emotional and spiritual values are harmoniously developed. Therefore, all the learning programs in the school are structured to inculcate in the learners, the qualities of:

1. Self-confidence with faith in God.
2. Academic excellence.
3. Communication and social skills along with analytical abilities.
4. Maintenance of a well-nourished, healthy and agile physique.
5. Inculcating an affinity towards a disciplined and regulated life.
6. Developing an interest to participate in service activities.
7. Harmonising positive thoughts, words and actions.
8. Developing respect and regard towards Indian culture and way of life.
9. Upholding reverence for parents, elders and honour for dignity of all individuals.

OUR SCHOOL BUS

Most of us have completed our schooling, and we all miss it. I think the schooling period is the most memorable time of anyone's life. Those unconditional friendships, sharing out tiffins, flying paper planes in the class, morning assembly time, the house dresses (blue, green, yellow, red) etc etc. Today, I want to take you on my school bus ride.

Every morning like any other kid, I never got up until my mom scolded me; then getting ready in 15 minutes, running around searching for an important notebook and then leaving half the breakfast so that I could reach the bus stop in time.

“I think my school is special because we all work together and it’s easy to make friends. I haven’t got a single enemy! All I’ve got is friends. I think this is the best school in the world.”
